## **Stenton Mortgage Launching New Company Using INTEGRA Software System's Loan Origination Software**

Franklin, TN, December 4, 2007. Based in Blue Bell, PA, Stenton Mortgage has chosen INTEGRA's Destiny loan origination software to be the hub of its new mortgage operations, scheduled to begin in early 2008. "We canvassed the entire mortgage software market and evaluated 31 different vendors, said Carl Lutz, VP of Operations. INTEGRA's combination of end-to-end functionality, ease of configuration and customization, and price put them at the top of our list. In particular, we like INTEGRA's web-based broker portal, its security and access controls, imaging, and interim servicing capabilities. We got everything we needed from one vendor, eliminating the need to bolt on third party applications."

Says Tim Bartek, Senior VP of Sales & Marketing for INTEGRA, "The Stenton executives are very savvy, experienced mortgage professionals who are creating a next generation mortgage operation. They needed a platform like ours that offers them flexibility and configurability as their business model evolves, as well as something that will grow with them. INTEGRA and Stenton each approached this as a partnership opportunity by engineering a creative relationship aimed at helping Stenton quickly develop their new business."

### **About INTEGRA Software Systems, LLC**

Established in 1996, INTEGRA partners with mortgage lending clients – medium to large sized banks; brokers; credit unions; retail, wholesale, and sub-prime lenders – to provide each of them a competitive advantage with a loan origination system (LOS) tailored to their specific needs. INTEGRA's Destiny LOS spans point-of-sale through post-closing and secondary marketing for lenders interested in efficiencies gained from automating every step of their mortgage loan workflow. Destiny wraps around a lender's particular business model and each of their business channels: Retail, Wholesale, Correspondent, Internet, Affinity, Telemarketing and Employee Loan. INTEGRA's WinBanker expands the company's core mortgage software business into complementary banking software for banks and credit unions of all sizes.
